

Aviation Security Awareness

 Distance Learning course (Print or eBook format)

Security is a concern for everyone in the industry, affecting virtually all areas of operation. Whether you work with passengers, cargo or at a security checkpoint, you have a role in keeping the industry safe.

This course introduces you to the security measures and regulations you need to know to work responsibly in the industry. It also provides examples of practices you can apply in your workplace to identify and prevent potential security threats.

Objectives

By the end of this course, you will understand:

- Your role as a future security professional in the overall aviation security framework
- The types of threats to consider in a security risk assessment
- Steps for enforcing security in your work areas
- The role of human factors in maintaining security

Key topics

- Current threats to the aviation industry
- Aviation security regulations and the international organizations behind them
- Airport access control for people and vehicles
- Passenger, baggage, cargo, mail and catering security basics
- Common airport and in-flight security measures for responding to threats

Target audience

- Entry-level security staff
- Industry personnel working with passengers or cargo

Completing this course

- This course requires approximately 40 hours of study, followed by a mandatory final examination
- An IATA Certificate is awarded upon successful completion of the final examination.
- This course is part of the [Aviation Security Screening Diploma](#)

Available course formats

Order [online](#) to receive self-study course materials in either:

- Printed format
- CD-ROM (eBook) format

Enroll at an [Airline Training Center \(ATC\)](#) to study these materials with the help of a local trainer.
